

NASA's Exploration Experience Trailer

NASA's Exploration Experience is an interactive traveling exhibit that takes visitors on a visual journey through the past, present and future of exploration. The exhibit uses 3-D imagery and the latest video technology to immerse visitors into the presentation, making them literally a part of what NASA is doing now and what we plan to do in the future. Along the way visitor will learn more about space program technologies that have improved everyday life, touch a real Moon Rock, and receive a souvenir photo as an astronaut before they leave

exhibit data sheet

General Specifications
